Operation.

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the financial year of the filing. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

1. The quality of earnings;
2. The likelihood that past performance is indicative of future performance; and
3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures taken or to be taken to address unfavorable trends; key performance indicators; and non- financial indicators.

General Discussion and Analysis of Financial Condition

The challenges brought about by the Covid-19 pandemic over the last twelve months assumed far greater proportions. Some of the fallouts included supply chain disruption, increased cost of goods for resale and high level of absenteeism affecting delivery of customer service.

Notwithstanding the complexity of the operating environment, the Jonas Browne Hubbard (Grenada) Limited Group performed creditably with an increase of total revenue by \$10.5m or 8.6 percent (\$133.1 million compared to \$122.6 million) for the year ended September 30, 2021. The Building Supplies division, which was particularly affected in the last financial year during the period March 27 to May 16, 2020 when the country was under lockdown, accounted for 59% of the \$10.7m revenue improvement. Profit before taxation fell by 2% (\$8.6 million compared to \$8.7 million in 2020) principally due to heighten credit risk, which resulted in a significant increase in the provision for Expected Credit Loss on Trade Receivables.

Despite the lower revenue levels Grenadian General Insurance Company, a wholly owned subsidiary recorded healthy profits before tax of \$3.5 million and accounted for 40.2 percent of the Group's profit.

Returns before tax on total assets (\$134.3 million) increased by 6.4 percent, while Retained Earnings of \$60.4 million increased by the same percentage year-on-year.

Jonas Browne Hubbard (Grenada) Limited ordinary shares most recently traded at \$20 per share and has a 5.06 price-to-earnings multiple. The book value per share as of September 30, 2021, is \$78.03.

The directors have declared a dividend of \$1.65 per share, (2020 - \$1.50) to be paid during the financial year ending September 30, 2022

The company has transferred all borrowing facilities that existed as of September 30, 2020 from CIBC FirstCaribbean International Bank (Grenada) Limited to the Grenada Co-operative Bank Limited. Additionally, a 3.5%, EC\$4,500,000 loan was successfully negotiated with the Grenada Co-operative Bank Limited to finance the expansion and modernization of the company's Building Supplies location located in Grand Anse. As of September 30, 2021 EC\$1,680,741 was drawn down.

- i) The reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations.
- ii) Any known trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, the issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.
- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.
- vi) Factors specific to the issuer and its markets that the issuer expects will affect its ability to raise short-term and long-term financing, guarantees of debt or other commitment to third parties, and written options on non-financial assets.
- vii) The relevant maturity grouping of assets and liabilities based on the remaining period at the balance sheet date to the contractual maturity date. Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

Off Balance Sheet arrangements

- i) Disclosures concerning transactions, arrangements and other relationships with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of, or requirements for capital resources.
- ii) The extent of the issuer's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support, or expose the issuer to liability that is not reflected on the face of the financial statements.
- iii) Off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the off- balance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

No such off-balance sheet arrangements.

Results of Operations

In discussing results of operations, issuers should highlight the company's products and services, facilities and future direction. There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- i) Any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, the extent to which income was so affected.
- ii) Significant components of revenues or expenses that should, in the company's judgment, be described in order to understand the issuer's results of operations.
- iii) Known trends or uncertainties that have had or that the issuer reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labor or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls

See Directors Review 2021 attached.
