7. Disclosure about Risk Factors.

Provide a discussion of the risk factors that may have an impact on the results from operations or on the financial conditions. Avoid generalised statements. Typical risk factors include untested products, cash flow and liquidity problems, dependence on a key supplier or customer, management inexperience, nature of business, absence of a trading market (specific to the securities of the reporting issuer), etc. Indicate if any risk factors have increased or decreased in the time interval between the previous and current filing.

The Covid-19 pandemic and the ever-evolving geopolitical landscape have caused significant disruption to all sectors of the global economy.

All the major supply chains were negatively affected, which has increased the cost and availability of all products and services.

The unemployment rate in the local economy is still high despite the reopening of the borders to cruise ships and airline tourists.

Although there is high liquidity in the financial sector, the risk of default by the ordinary customer remains high.

While the Group has a strong balance sheet, those factors that adversely affect its customers' demand and the Group's ability to provide its regular basket of goods and services will reduce the short-term profitability of the entity.

The Board continues to be proactive in identifying, evaluating, and implementing measures to mitigate the effect of these risks.

Management's Discussion and Analysis of Financial Condition and Results of 10. Operation.

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the financial year of the filing. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

1. The quality of earnings:

2. The likelihood that past performance is indicative of future performance; and

3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures taken or to be taken to address unfavourable trends; key performance indicators; and nonfinancial indicators.

General Discussion and Analysis of Financial Condition

Chairman's Report

The COVID-19 global pandemic continued to impact our economies negatively in fiscal 2021, which unfortunately resulted in a continued decline in our performance results.

Income Before Taxation of \$6,834,785 was a decrease of \$4,834,764 or 41.43 % versus 2020. Similarly, Income After Taxation of \$5,012,829 was less than 2020 by \$3,536,330 or 41.36 %. Basic Earning Per Share for 2021 was \$0.08 versus \$0.14 for 2020. These numbers also reflect a 60% decline from 2019. Total Comprehensive Income was \$11,693,040 versus \$8,508,027 for 2020. This increase in Total Comprehensive Income was due to property revaluation exercises, which resulted in an overall gain in Other Comprehensive Income of \$6,680,211 Turnover or Group Sales for 2021 was \$130,952,148 versus \$148,512,924 for 2020, a decrease of \$17,560,776 or 11.82 %. Our Automotive Sector decreased by \$4,652,147 or 24.78 % and our Consumable Goods Sector decreased by \$13,437,257 or 16.59 %.

Gross Profit decreased by \$5,380,159 or 14.97 % to \$30,554,437.

Other Income decreased by \$1,754,438 or 15.23 % to \$9,763,637 due to lower interest income caused by a declining vehicle and furniture hire purchase portfolio.

The resulting Total Income decreased by 7,134,597 or 15.04 % to \$40,318,074.

Operating Expenses decreased by \$2,884,731 or 7.70 % to \$34,555,670. Employment Costs declined significantly, as did impairment losses on financial assets. Most other categories also experienced savings.

Operating Profit decreased by \$4,289,866 or 42.68 %, to \$5,762,404.

Share Of Results Of Associated Companies after tax was \$1,381,577, a decrease of \$942,813 or 40.56 %. This decrease was experienced by both St. Kitts Masonry Products Ltd and Carib Brewery. Finance Charges decreased by \$397,915 or 56.27 %.

Profit Before Income Tax decreased by \$4,834,764 or 41.43 %.

Income Tax Expense was \$1,821,956 versus \$3,120,390 in 2020. The effective rates for 2021 was 33.41 % versus 33.39 % in 2020.

Profit After Tax for the year decreased by \$3,536,330 or 41.36% to \$5,012,829.
